

WHAT IS CLAIMED IS:

1. A scented bracelet comprising a bracelet body, a sheet material covering the bracelet body, and a fragrance-containing microcapsule material adhered to the sheet material.
2. A scented bracelet according to claim 1, wherein said microcapsule material is adhered substantially only to an inside surface of said bracelet adjacent to the arm of the wearer.
3. A scented bracelet according to claim 1, wherein said bracelet body comprises an elastic material which permits the bracelet to be slapped onto one arm by a one-handed movement of the other arm.
4. A scented bracelet according to claim 3, wherein said microcapsule material is adhered substantially only to an inside surface of said bracelet adjacent to the arm of the wearer.
5. A scented bracelet according to claim 1, wherein said microcapsule material is adhered substantially only to an outside surface of said bracelet away from the arm of the wearer.
6. A scented tattoo comprising a backing sheet, tattoo material on the backing sheet, and a fragrance-containing microcapsule material adhered to at least one of the tattoo material and the backing sheet.
7. A scented product comprising at least one body, a sheet material on the at least one body, and a fragrance-containing microcapsule material adhered to the sheet material.

8. A scented product according to claim 7, wherein said at least one body includes a pair of bodies connected together, said microcapsule material being adhered to at least one of said bodies.

9. A scented product according to claim 8, wherein at least one of said bodies includes an elastic material which urges said body automatically into a spiral shape.

10. A scented product according to claim 9, wherein each of said two bodies includes an elastic material which urges said body automatically into a spiral shape.

11. A scented product according to claim 9, wherein the other one of said two bodies includes an elastic material which stretches and contracts longitudinally.

12. A process for manufacturing a scented product comprising the steps of:
providing a product comprising a body, with a sheet material covering said body, and

applying a fluid to said sheet material, said fluid containing microcapsules which contain a fragrance.

13. A process as claimed in claim 12, wherein said product is a bracelet.

14. A process as claimed in claim 13, wherein said microcapsule material is adhered substantially only to an inside surface of said bracelet adjacent to the arm of the wearer.

15. A process as claimed in claim 13, wherein said bracelet comprises an elastic material such that the bracelet can be slapped onto one arm by a one-handed movement of the other arm.

16. A process as claimed in claim 15, wherein said microcapsule material is adhered substantially only to an inside surface of said bracelet adjacent to the arm of the wearer.

17. A process as claimed in claim 12, wherein said fluid is applied by spraying.

18. A process as claimed in claim 14, wherein said microcapsule material is adhered substantially only to an outside surface of said bracelet away from the arm of the wearer.
